# interoffice MEMORANDUM

**To:** File

**From:**   
Randy Lyman, Pretreatment Coordinator

**Subject:** 2700 W. Olive/ 2700 W. Water

**Date:** Friday, July 23, 1999

**Re:** *Anonymous Complaint-Blackburn Bros.-Alleged sewage dumping*

Monica Collins received a call from Kyle Williams of the Springfield/Greene County Health Dept. that Blackburn Bros. Septic has been dumping sewage in the 2700 block W. Olive. I drove to the vicinity and looked at all of the manholes in the 2700 blocks of W. Olive and W. Water. None of the manholes appeared to have been removed recently nor was any noticeable 'spillage' observed. Manhole #53,O-16,NE, had the lid cocked as if it had been pushed up during a SSO event. I gave the map to Monica to have a sewer cleaning crew seal the lid back with iron cement. The crew reported back to Monica that manhole #54 had a lot of debris clinging to the sides, invert, or steps. I told Monica I would take a look for myself to determine if this may be where the alleged dumping occurred.

I inspected manhole #54 at about 2:15 p.m. and saw a lot of debris lodged on the 'invert' well up above the flow line in the 18-inch main. The 'invert' is really concrete that has been formed where the sewer coming in from the west was poorly tapped into the manhole. I believe the debris is not fresh and probably remains from an I/I event several months ago. I do not believe it to be recent dumping by any septic hauler, at least in my opinion. We had a similar complaint on 2/4/98. Nothing was determined to either confirm or deny that the complaint was true. We will continue surveillance of the area to determine if the anonymous complaint to be true.

# SERVICE REQUEST SUMMARY FORM

**CASE NO:** SVC98-00601   
 **Reporting Dept** HE   
 **Reg Type** SEWAGE   
 **Status** CLO   
**Date reported** 02/04/1998
